BROADWAY RAILROAD PROJECT .- The Specisl Committee to whom was referred the petitions for and remonstrances against the construction of a Rail road on Broadway, again met in their Council Chamber on Friday afternoon, when, in consequence of the absence of James R. Whiting, Esq., Mr. Thomas E. Davis proceeded to offer a few further remarks in opposition to the project, inasmuch as it would be enrich ing a few individuals at the expense of the City. He was sure that millions of dollars could be made out of it, and the profits ought to go into the City Treasury, so it, and the profits ought to go into the City Treasury, so that our taxation could be proportionably decreased—that if we are to have a Railroad in Broadway at all, it ought to be built by the City, and the profits derived therefrom be shared by our tax paying citizens.

From an estimate which he had made, the cost of building four miles of railroad in Broadway, together with horses and cers for working the road, would be \$250,000. The expense of running 120 cars he estimates at \$480 per day, or \$175,000 per annum.

With regard to the income that would be derived from running 120 cars he had calculated the result at various rates, as follows:

various rates, as follows: 64 cts. fare w'd. give \$4,500 per day, or \$1,942,000 p. ann According to the foregoing estimate there would be

Out 1 cent form of \$86,600, being equal to interest at 6 per ent. on \$1,403,339 35

Out 1 cent fare of \$25,600, being equal to interest at 6 per cent on \$1,03,033 83.

Out 2 cents tare of \$294,000, being equal to interest at 6 per cent. on \$5,830,000.

Out 3 cents fare of \$13,200, being equal to interest at 6 per cent. on \$10,550,000, being equal to interest at 6 per cent. on \$14,55,600 66.

Out 5 cents fare of \$1,108,300, being equal to interest at 6 per cent. on \$14,50,000 60.

Cost of right of way for 4 miles at \$20 per foot, (which he was willing to give, and produce the most satisfactory security for the performance of such conditions,) would smeant to \$5.491,200.

EDWARD SANDFORD, Eq., counsel for the stage proprietion, in the meanting next ad fressed the

would amount to \$5.491,290.

EDWARD SANDORD, Eeq., counsel for the stage proprietors, having entered in the meantime, next ad freesed the Committee in behalf of his clients, in opposition to the road. He said it was proper to see whether Broadway, in the present condition, answered the purpose of those who live and do lossiness on the street; whether their interest would be promoted by building the proposed railroad. Again, it was right to ascertain whether those who use that thoroughfare as a roadway, either for vehicles or as foot; assengers, were satisfied with Broadway in its present condition. He contended that all the owners of property, occupants of dwellings and stores on Broadway, as well as those who traveled tarough it either in carriages or on foot, were not only perfectly satisfied with Broadway in its present condition, but they preferred to have it as is now; that its present bustle and commotion constituted its principal charm. He likewise contended that Broadway was not overloaded; that it would still bear much more, and referred to Cheapside and other thoroughfares of London, which were still noore crowded than Broadway, and yet they had not considered it necessary or expedient to facilitate travel there by building a railroad. He considered that when Broadway did become overloaded, travel would regulate itself; and that the opening of new avenues, and paving them in the same manner as Broadway was, would materially relieve Broadway, when that became necessary; that the evil was not to be remedied by legislation. After alluding to the chances which had baken place in the location of shipping and business stores, he closed by stating that if any party was to have the privilege of building a railroad in Broadway, it was those who had so large an amount invested in ominious conveyances, &c., who had authorized him to offer to build the road and pay over to the City one can for every parsenger conveyed on the road, which they would guarantee should never be less than \$50.00 per annum.

DR. ADAMS'S CHURCH .- A correspondent of an evening paper states that the Trustees of the Central Presbyterian Church in Broome-st, have not "been looking for a suitable location in the upper part of the City, nor has the idea been entertained or proposed of removing or disturbing, or changing in any way, the Central Presbyterian Church in its present location. Whether an entirely new organization in the upper part of the City shall be accomplished at some future day will be for time and wisdom to mature.

THE 'LONGSHOREMEN.-The 'longshoremen, as a body, feeling that their position is not fully understood by the public, and aware that their cause has been prejudiced by the injudicious action of those who, upon their own individual responsibility, violated the public peace-which conduct the longshoremen, in their meetings, have emphatically condemned—have issued the following statement of their alleged grievance:

A CARD.

To the Editor of The N. Y. Tribane:

Sin: In order that the public may understand our position, and thet a correct estimate may be formed of the merits of the case, we respectfully solicit the publication in the columns of The Tribane of a plain statement of facts in relation to this matter. Many persons imagine that the weges which we demand—viz: 13] not perday—are exerbitant, and that the merchants have shown great liberality in concenting to advance 1/, giving \$1.25 per day. Such persons, we are sure, have no correct notion of the nature of our employment. If they had they would, we are satisfied, take a different view of the matter. It will not be denied that we are the most hardworking class men of men in the community. We are generally exposed to the inclemency of the weather, or confined in the dungeon hold of a ship from morning to night, when comployed. Many of our number, from the harsed attending the businers, meet with accidents which by them up for weeks and months, and frequent by reach in the loss of life.

Ours us a very precarious and uncertain sort of em-

Ours is a very precarious and uncertain sort of employment; there is nothing constant or steady about it. We cannot at the highest average more than 4 days per week, from year's end to year's end. The larger number, we say with the confidence of men who know they are speaking the truth, den't average so much; but left it go at that, and we find ourselve at the end of the week, with little more than \$1 per day, in our peckets, that is all the wages we demand—4 days at 13/18 \$5.50. With rent \$25 to 30 per cent higher now than they were 4 or 5 years age, and provisions of all kinds proportionably advanced in price, we leave it to the community at large—to the merchants themselves—whether this sum is even sufficient for a family to exist upon. We are mostly married-men, having families—say there is an average of 5 persons in each family, they want a place of residence, and they cannot get a place fit to live in for a less sum than \$7 per month—that is \$1.75 per week. Deduct that from \$6.50—the average weekly wages, at the rate claimed—and you will have left for the support of a family of 3 persons, the enormous sum of \$4.75! Is this too much it is our demand autressonable. I lette conduct of the merchants of New York marked with that liberality which should distinguish just and humane employers, when they abortly refuse to pay us such remuseration for our labor as will hardly embleu us to keep beily and soul to gether? We have, many among us, devoted the best of our days to their service; we have enabled them to enlarge their espital and extend their business. We are proud of it; but we cannot but feel that there is a want both of justice and humanity in casting old, exable and wellteried servants off for the palry sum of 1/a day—inalguilicant to our employers, but of importance to us. It is bad polity, too; the merchants may less by it as well as well have the end of that time they made and announced the heavy five him whether a sum of the remained and the weakly of the sum of the machined to the sum of the sum of

FIRE ON WARD'S ISLAND .- Friday evening a large frame building, occupied as a dining room and laundry, in the rear of the old stone factory on Ward's Island, was completely destroyed by fire. The fire originated from cause unknown in the laundry, and before any effort could be made to extinguish it the entire building was completely enveloped in flames. The loss will probably amount to about \$6,000 or \$7,000. Insured for \$5,200 in the Manhattan and Equitable Insurance Companies. By great exertion on the part of the firemen on the Island the flames were prevented from communicating to any of the adjoining buildings.

Theboy, it appears, went to the above-named firms and represented that his father had sent him for the jewelry. On previous occasions he had been sent by his father on similar errands, and this fact led those firms to believe his statement to be true, and they accordingly supplied him with what he asked for. After getting possession of the articles, he divided them between three of his associates. with what he asked for. After getting possession of the articles, he divided them between three of his associates, named John H. Cordean, Wm. Phyres and Wm. The molasses (already referred to) was seized on the ground of false invoice, it having been entered at the Custom House, at 8 cents per gallon, without stating cost of hogsheads, freight, &c., as it is contended should have been done. BROOKLYN ITEMS.

Funeral of Gen. Jeremian Johnson.—On Friday afternoon the funeral of the late Gen. Jeremian Johnson was held at his late residence in East Brooklyn, and was attended by his large circle of relatives and tamily friends only. At his request no milliary or other public display occurred. Prayer was offered by Rev. Mr. Genenalar, Presbyterian Clergman of East Brooklyn, Rev. Mr. Strone, of the Reformed Dutch Church, Flatbush, read the Scriptures, and Rev. Dr. Dwight, of the Reformed Dutch Church, near the City Hall, Brooklyn, delivered the discourse. On Saturday the remains of the deceased were conveyed to Greenwood Cemetercy for interment. At the time of his death he was over 87 years of age, and, until recently, passessed remarkably good health for one so advanced in life.—The farm upon which he lived, at the time of his death, was owned by his ancestors, and he was born upon it, and has always resided upon it. The house in which he lived was sreeted by him in 1800—32 years ago. Gen. Johnson recollected the commencement of the Revolutionary War. Residing upon the shore of the Wallabout Bay, and in the immediate vicinity of New-York, the headquarters of the British forces, he was cognizant of many of the thrilling events of the Revolution. He saw the prison ships as they lay moored at the Wallabout, and saw the bedies of many of the 14,000 martyrs brought from the prison ships and slightly buried upon the beach.

During the three years of the war of 1812-13 he was FUNERAL OF GEN. JEREMIAH JOHNSON .- On

During the three years of the war of 1812-13, he was During the three years of the war of 1819-13, he was brigadier-general in command of our troops, stationed at Fort Green. It was in view partly of this fact that Gen. DURYEA issued an order to his brigade, as a testimonial of respect to the deceased, in which he stated that "Under the circumstances it would be proper that this brigade should bear the remains of their old commander to the grave, with every tribute of military hosor, were it not his expressed desire that without military or civic escort, by his family alone, this solvan dury should be performed."

Gen. Johnson was Supervisor of Brooklyn for forty years, successively, and enjoyed the unbounded condence of its citizens. He was elected Mayor of the City in 1837, and reflected in 1838. He was remarkable for his prompthess and faithfulness. He is the only ex-

City in 1837, and reflected in 1838. He was remarkanie for his promptuess and faithfulness. He is the only ex-Mayor of Brucklyn, that has died. The Board of Supervisors of the County, and the Aldarmen of the City passed resolutions of regret for his death, teatifying the public sorrow, at the event. In 1840 and 1841 he was elected to the State Legislature, which was his last public position. He was Prosident of the St. Nicholas Society of Nassau Island, at the time of his death.

NEARLY SUFFOCATED .- On Thursday night NEARLY SUFFOCATED.—On Thursday night last two men, named William Brown and Janes Kelley, who had obtained lodgings at the Taird District Station-house were nearly sufficated in consequence of the unhealthy condition of the quarters assigned to them. The tact was discovered by the doorman in attendance, who immediately called in medical aid, and they were rescuscitisted. It was evident that if a few mements more had clapsed they would have been past all remedy. The lodging room of this station, although kept as neat as it can be, is an ill-constructed and ill-ventilated piace, totally unfit for the purposes for which it was designed and for which it is used.

DECEASED .- Mr. JOHN R. MORAN, formerly DECEASED.—Mr. JOHN R. MORAN, formerly employed on some of the New-York and Brooklyn newspapers, as a Reporter, departed his life, on Trursday night last, in the 29th year of his age. His remains were intered in the Bishop's (Catholie) Barying Ground, at Williamsburgh, vesterday afternoon, accompanied by a respectable number of sympathizing friends. For about a year past, the deceased resided with Mrs. Harriaway, No. 346 Fulronest, Brooklyn, who during his illness of some four months' duration, exercised an affectionate and motherly care over him; and finally, when death terminated his sufferings, procured a desent place for the repose of his body. He had no relations in this country, but from information acquired from papers in his poissession, it is presumed that his fater resides at Royal Leanington Spn, Warwickshire, England, and an uncle, Thomas Monan, in Dublin, Ireland.

STABBING AFFRAY .- Mr. HANDLEY, the keep-STABBING AFFRAY.—Mr. HANDLEY, the Keeper of a porter-house in Parkay, was dangerously
stabled with a jack knife on Saturday morning. It appears that a detachment of marines, just arrived from
Boston, stepped at his place and commenced quarreling
with each other; and in attempting to reconcile the parties he was stabled in the back by one of them. Tarsemen named Foan, Sweeney, and Simpson, were arrested by Officer Rooma, Fourth Police, and committed for
examination on the charge.

NEW-JERSEY ITEMS.

Temperance.—Hon. Near. Dow, late Mayor of Portland, and suthor of the Maine Lax, addressed an assembly of the citizens of Jercey City, at the M. E. Church, on Friday. The proposition discussed by him was "The Enactment of a Law for the Suppression of Drinking-houses and Teppling-shops." He remarked upon the objection that Temperance, being a moral que too, abould not mingle with politics. The speaker characterized that as an outery of those who sim for their insirvidual advantage, and feared that the movement would interfere with their partison plans. He regarded this in the same light as various other moral questions which have been deemed proper for legislative emactment. This involved great interests of the community and was equal in importance to any other public question. The objection that the enactment of a productory law was a transgression upon individual rights was considered Mr. Dow claimed that the public welfare was of perameter importance in comparison with individual interects, and that legislation should promote public welfare. In several States, he said, laws existed more stringent in their character than the Maine Law in They recited the sacrifice of property, liberty, and even life—when the waiture of the public demanded. To illustrate how the law consults the public well at the expense of private convenience, the speaker mentioned the operation of laws establishing or conducting callrowly or cher public improvements. Also, have subjecting pairwate property embarked in trade and commerce to a rigid inspection, before they are allowed to be put in market. The operation of the Meise Law in Portland had been most tavorable. Streets in which it formerly was dangerous for persons to pass at night, had become thoroughfares in which the most reinsed ladies could pess without molestorion, day or night. Throughout the State of Maine the beneficial effect was visible, and many families have cause to bless that law. Mr. Dow must extractly recommend the adoption of that law in New-Jersey. He will speak a TEMPERANCE .-- Hon. NEAL Dow, late Mayor

PHILADELPHIA SALES OF STOCKS-Saturday, P. HILADELPHIA. SALES OF STOCKS—200 schools, by the comparison of the comparison of

SATURDAY, Oct. 23-P. M.

There was a decidedly strong feeling in the Stock market this morning, and the Second Board opened with great buoyancy and activity, although at the close there was more disposition to sell, and lower prices were accepted. The rise in several stocks wee sufficient to bring out so much stock for realizing profits that the supply was in excess of the demand. N. A. Trust shows the greatest fluctuations, having fallen to 181, a decline of 41 per cent., and then reacted to 22. The sales of the day were about 3,500 shares. Hudson River was also very buoyant, and touched 761, a further advance of 1 per cent. Nicaragua was in domand and buoyant, improving a per cent. Erie was very active, the sales of the day being over 5,000 shares, of which 2,250 were at the Second Board. The market closed at 86%, an improvement of 14 per cent. Norwich and Stonington are firm and in demand. We have a rumor that a meeting of the roads is to be held soon to endeavor to arrange differences. Canton improved to 80‡. Long Island recovered from its late decline, and touched at 271. The Philadelphians, we understand, intend to take the management of this road into their own hands, and build it up, if possible, to a paying point. The receipts are now largely in advance of last year. The Coal Stocks are firmer. Cumberland went to 66, an advance of 2½ P cent, but closed at 65½. New Jersey Zinc continues urm at 11½. Government and State Stocks are in demand and very frm. Of U. S. 6s, 1867, 63,500 were sold at 119. Virginies brought 1115. Eric Bonds are improving, and he Convertibles of 1862 advanced 1 P cent.

In Exchange there is but little doing and the quotations are heavy. Bankers' bills are 110; 2110]. but other good names can be had at 110, and bills drawn ngainst Cetton, Breadstuffs, &c., at 1091@1094. The upply of bills from the South are increasing.

Freights are very firm. To Liverpool, Grain 7d.; Flour, 2/ asked; Cotton, id., with moderate engagements; 600 bbls. Resin, 15d.; 25 hhds. Tobacco, 25/ &c. The steamer Baltic has 5,000 bush, Wheat, begged by the shipper, at 7d. To London, Flour, 2/3; Measurement Goods, 25/@30/. To Havre, the ship George Hurlbut, has 1,700 bales Cotton at 4 of a cent; 1,000 bbls. Flour, 40 cents; and 100 Potash, \$5. To Marseilles, by the ship Gaston, light Pipe Staves at \$15; 200 bags Pimento, i of a cent; and to Hamburg, 100 do., i of a cent. A Norwegian brig was taken up at £2 10/ for Sugar from West Indies to London; and a brig of 200 tuns from this port to Cardenas at \$1,000 out.

The Franklin, to-day, took \$332,000 of coin, of which only \$173,000 was Amer, Gold. The exports of the week were \$787,823, and of the year \$23,030,602. The City of Manchester, from Philadelphia, had \$80,000

The receipts at the Sub-Treasury were \$88,223; payments, \$97,636; balance, \$5,990,006, show ing a decrease of about a million and a half, from the highest point.

There is an improved demand for Railroad City and County Bonds, partly for home investment, but meinly for foreign consumption. Messre, Winstow, LANIER & Co. sold \$100,000 of two or three Western Hailroad Lonns; Mesers. Duncan, Shraman & Co. \$25,000 Chicago City Loan; Mesers. DELANO, DUN-LEVY & Co., \$200,000 Ohio County Loan; and two or three other houses sold, in the aggregate, \$100,000 of various Railroad Loans. Nearly all these amounts are for Europe, and many of the Bonds were forwarded by the Franklin

In the Nantucket case, upon which the late improvement in that Stock was based, the Court of Appeals hold that the free Banks established under the law of 183s are "moneyed corporations," within the mean ing of our statues, and that they have no right to deal in buying and selling State Stocks, except merely so much as may be necessary to deposit with the Controller as security for their bills of circulation; and the any contract for a purchase beyond that, is absolutely void. The rights of the State of Ohio, under a special

agreement, were reserved. The Black Warrior took \$120,000 in coin to
